## p2\_multiagent\_welcome

### Multi-Agent Pacman

First, play a game of classic Pacman:

```
python pacman.py
```

Now, run the provided ReflexAgent in `multiAgents.py`:

```
python pacman.py -p ReflexAgent
```

Note that it plays quite poorly even on simple layouts:

```
python pacman.py -p ReflexAgent -l testClassic
```

Inspect its code (in `multiAgents.py`) and make sure you understand what it's doing.
